Emir Genjac

Software Developer

Visoko, Bosnia and Herzegovina · genjacemir5@gmail.com · +387 61 353 322 · LinkedIn · GitHub

EDUCATION

Polytechnic Faculty, University of Zenica — **Zenica, BiH**
BSc Software Engineering — *2024 – Present*
- GPA: 9.2/10

WORK EXPERIENCE

FlyRank AI — **Remote**
Backend AI Engineer Intern — *Jul 2026 – Present*
- Backend engineering intern on FlyRank AI's backend track.

United Nations Volunteers — **Remote**
Web Developer — *Dec 2025 – Jan 2026*
- Shipped the public seized-assets catalog now used by the Federal Agency for Seized Assets (katalog.fazuoi.gov.ba)
- Designed the REST API with 10+ endpoints and 10+ data models.
- Digitized 100+ government records

PROJECTS

Portfolio and Blog — *Apr 2025 – Present*
Spring Boot, Spring Security, React
- Built a Spring Boot REST API and React client with cookie-based JWT authentication (Spring Security), login rate limiting, and backend and frontend tests. Implemented CI/CD with GitHub Actions, then deployed and hosted it on my domain. Live at https://emirgenjac.com (github.com/emirgenjac/portfolio-blog).

Adria Hack — **Sarajevo, BiH**
Heronn — *Sep 2026*
- Shipped Heronn with a team of four in a 24-hour sprint: a fail-closed TypeScript and SQLite daemon that gates shell commands from AI coding agents before they run
- Auto-allows safe command classes, blocks dangerous ones, and parks the rest in a React queue a person can allow or deny, with no data leaving the machine
- Integrated the Claude Code part – makes Herron work with Claude Code agents. (github.com/emirgenjac/Heronn.ai).

ADDITIONAL INFORMATION

Languages:	Bosnian (Native), English (C2), German (B1)
Technical Skills:	Java, Spring Boot, Spring Security, JUnit, React, TypeScript, JavaScript, Jest, REST APIs, SQL, SQLite, PostgreSQL, MongoDB, Git, CI/CD
Interests:	Football, Chess, Gaming, Music, Movies
